Can we read quran in english transliteration

The Arabic text of the Koran is collected from several authentic sources. Each ayah (ayat) is provided with English transliteration, which help to pronounce Arabic words for non-Arabes. Every Ayah is also provided with English translation. There are 3 total tabs for each surah (page), Recite Surah, Tafseer of Maududi on Surah, and Surah Tafseer. The first tab is for transliteration, translation and recitation of the Koran. The second tab is for the Maududi tafseer on each surah and the third tab is E.H. Palmer explanation of each surah. Transliteration of Quran Quran Transliteration means that every word quranica (arabica) is converted into English-language letters that on pronunciation sounds very similar to the arbic version. Arabic letters are very complex to read and understand and therefore easy to make mistakes. That's why Quran was transliterated so that people can read better. Below is an example. These are still Arabic words, but written in English to help non-Arabic people pronounce it better and make it look like they are reading in Arabic. We highly recommend that everyone learn Arabic to read the Koran correctly and transliteration should not be the only way to read the Koran. Transliteration helps to pronounce the Arabic word better. Bismilla_hir rahma_nir rahim(i). Start reciting the Koran with Transliteration. Translations of Koran: Koran translations are available in the following languages. Please click on the translation to start reading it. Qirat is an Arabic word that means the way the reciter (qari) plays Koran. We have collected some of the recitations known worldwide (qirat) of the Koran listed below. Click on the name of each reiter(qari) to listen to Quran in his voice. Summary of the chapter: Maududi's translation and commentary on the Koran, "The meaning of the Koran", is one of the best worksToday. Unlike many first translators, Maududi uses standard technique to provide an explanation of verses Qur'anic from the Sunnah of the del del(sas), including historical reasons behind the verses. Below is a list of the introductions of Maududi to each chapter of the Koran. Unfortunately, this represents a very small portion of the six volumes that make up the complete comment. Explanation(Tafseer): The explanation is taken from the book Il Corano which has two parts, part 1 and 2. URL consulted on 12 October 2012. The Clarendon Press [1880] Part II E.H. So, the reward wouldn't be the same if you read it in another language. But don't lose your heart! When someone struggles to read the Koran in Arabic, when Arabic is not his first language, he receives twice as much reward! Salam Dear Brother, Thank you for your question and contact Make About Islam. First, as for the reward, the answer is no, the reward is not the same. But let me explain: reading the Koran in Arabic has the reward of a hasanat for each letter read, where you haveanat is the reward for a good action. As an authentic hadith in At-Tirmidhee says: Whoever reads a letter from the Book of Allah will have a reward. And that reward will be multiplied by ten. I'm not saying that "Alif, Laam, Meem" is a letter, rather I'm saying that "Alif" is a letter, "laam" is a letter and "meem" is a letter. Double the prize! Reading the Koran in Arabic, when Arabic is not the first language of the reader, he doubled the reward! Aishah, may Allah be pleased with her, reports that the Prophet (peace behe said: Of course, he who recites the Koran magnificently, smoothly, and precisely, will be in the company of noble and obedient angels. And as for him who recites with difficulty, baptizing or stumbles through his verses, then he will have TWICE that reward. [Al-Bukhari and Muslim] So my brother in Islam, don't let Satan give you some excuses like "I'm not a 'Arab' , or "it's not my language". This hadith is a firm test against such whispers. Dedicate to the Koran, whether you are Arab or not! The apologies have been removed and the path has cleared for you to embrace the Koran. And inshaAllah you will find a teacher or a circle of study to help you. Read also the Koran in your own language! Reading the Koran in English (or in the language of the reader) is obviously useful in understanding the translation and meaning of Arabic. This is something every Muslim is required to do. Every Muslim should have read and understood the whole Koran before he died. Then, we will have no excuses that "we did not know" when we are questioned on the Day of Judgment. The only real Koran is the Arab Koran The Koran is only the Koran in Arabic, so, you must pay attention that you have a good translation or access to a scholar. A translation is only the man's attempt to explain the Word of Allah. It is not enough to read and make your own interpretation. Neither the Koran should be quoted in translation unless the translation has been controlled with Arabic. This is to avoid any involuntary error, disinformation and distortion. Not only read: Reflecting on the deep meaningsIndeed to reflect on the verses of Allah is a form of worship (dhikr) that will draw one close to Allah the Most High. This reflection is not an unconscious and wandering, but includes a study of the classic tafseer of the verses under study, as this would satisfy the great advice of Ibnul-Qayyim: "How to reflecta book that a person has memorizedHe expels it so as to understand what his author means from it." Indeed, the Book of Allah is not a book like other books, it is the timeless speech of Allah, not something created. It is the study guide for life and death and what comes next. He deserves a very careful study, much more than anyone else's speech. We should know what the Prophet said (peace be upon him) and how he interpreted it. We must also understand how his immediate followers interpreted the Koran, as he taught them directly. Otherwise, we can allow contamination during the ophster eras or confuse our understanding and make us understand some things not destined by Allah the Most High, and therefore goes astrae, thinking that we are worshipping Allah. I hope this helps you answer your question. Salam and please keep in touch. (From the AboutIslam archive)Read more...
